## Professional Summary

---

Results-driven AEM Developer with 4 years of experience designing, developing, and supporting scalable AEM solutions. Proficient in component development, templates, workflows, Sling Models, and OSGi services. Demonstrated ability to drive cross-functional collaboration, support enterprise platforms, and deliver value in Agile and client-facing environments. Adobe-certified professional seeking to leverage my technical expertise and problem-solving skills to contribute to the success of a dynamic team.

## Work Experience

---

**Infosys Limited** | Technology Analyst

**AEM Developer**

**May'23 – Present**

- Developed pages, templates, and components in AEM according to requirements, ensuring proper reusability and inheritance mechanisms.
- Created editable templates and integrated experience fragments for headers and footers, resulting in enhancement in site consistency and reusability.
- Extensively worked with Java classes, Sling models during component implementation.
- Used Multi Site Manager (MSM) live copies from blueprints to support global site rollout strategies.
- Collaborated with business analysts and QA teams in Agile sprints to ensure timely delivery of features aligned with stakeholder goals.

**AEM Support Engineer**

**Sept'21 – Apr'23**

- Provided L2/L3/L4 support for over 150 AEM incidents, workflows, and bug fixes, maintaining a 99% resolution rate within SLA.
- Resolved workflow issues, asset failures, and replication problems, optimized content operations for multi-locale authoring.
- Consulted business users on AEM personalization and structured content use, improving engagement metrics by 10%.
- Reduced unauthorized content changes through structured access controls and permissions governance.
- Supported clients in authoring and leveraging AEM components, templates, and workflows, leading to a 30% increase in efficient content management.
